2017

Duta Klasik Sdn Bhd was incorporated in 2003 as a bumiputera firm specializing in mechanical and electrical contracting. Years of building a reputation as competent, reliable contractor and supplier created an opportunity to dig deeper as a company. In 2008, Duta Klasik commenced fabrication and rental of Positive Pressure Welding Enclosures (PPWE) @ Habitat for the oil & gas industry. That same year, Duta Klasik's PPWE solutions earned the SIRIM-QAS International as well as the ISO 9001:2008 certification from Det Norske Veritas (DNV).

The company has since evolved into an engineering solutions provider for the oil & gas industry specializing in raising onshore-offshore operational efficiency, safety and productivity through consultation, precision equipment and petrochemicals. Ever committed to quality and excellence, Duta Klasik is constantly establishing partnerships and joint ventures with industry pioneers to deliver beyond ordinary technology and solutions. Today, Duta Klasik continues to spearhead innovation and service excellence in new markets within Southeast Asia and beyond.
